HOWARD COLLEGE RECEIVES SCHOLARSHIP FUNDING FROM SAN ANGELO COMMUNITY MEDICAL CENTER AUXILIARY

SAN ANGELO, TX, JANUARY 17, 2012: At their quarterly meeting on January 16, 2012, the San Angelo Community Medical Center Auxiliary presented \$40,000 to Howard College San Angelo. The funds will be used to establish an endowed scholarship for students pursuing a Health Professions degree through Howard College San Angelo. Scholarships will be awarded from the interest earned from the fund account. The first scholarships are anticipated to be awarded beginning with the Spring 2013 semester. When ready, students will be able to download the application and requirements from the Howard College website.

Gene Rowden, Treasurer of the SACMC Auxiliary stated, "Many of the staff here at Community are Howard College graduates. This is one way we can give back and help support future students for years to come."

"We are very grateful to receive this funding that can make a financial difference for our students and their ability to pursue their educational goals in the health professions," commented LeAnne Byrd, Provost. "The Health Professions programs are very

rigorous. Students typically cannot work part-time while in the program. Scholarships can help ease their financial burden.”
