and so it begins ......

the search is on for the **BIG IDEA**!

What’s Your ‘Big Idea’ For Our Next QEP at Howard College??

The Quality Enhancement Plan (QEP) is required as part of the SACS Accreditation. Simply said, the college will develop an acceptable QEP that is ongoing, enhances the overall institutional quality and effectiveness and focuses on issues that will improve student learning.

No idea is too small or too great...

As you develop your amazing ideas, you may want to consider these concepts:

• A QEP should result in significant improvements in the quality of student learning
• Broad-based institutional participation (Yes, this means that EVERYONE participates in the entire process)
• Research and best practices are included
• Allocation of human and financial resources
• Clear timeline and assignment of responsibilities
• Evaluation of effectiveness
• Based on institutional data and identified needs

Details & Timeline Coming Soon
