Please provide comments about this instructor or course [Field-Instructor],...
I enjoyed the course very much! Always got feedback, and when the instructor was needed, she was there! Thank you very much!
I enjoyed Mrs. Hubbard, she made class very interesting and it was easy to comprehend what she was helping us learn.
I really enjoyed Mr. G's class he made micro fun and he created a comfortable environment. He had a great personality and we learned a lot of fun facts in class. Overall I would suggest another student to take his class.
Professor Hubbard was an excellent teacher, she made everything clear and was always willing to help.
I would prefer feed back on completed assignments sooner, before the next assignment begins.
BEST INSTRUCTOR, SHE REPLIED TO OUR QUESTIONS IN TIME
really learned alot
This course was very interesting and well taught. I enjoyed it very much.
gave me a whole new perspective about life
Great Instructor
Great Instructor
She was very thorough and she always gave me positive feedback. When I sent emails I always got a response and in a timely matter. She made me think and really understand what I was reading. In all I think I really benefited and learned a lot from her class.
I thought Mrs. Hubbard was a lovely teacher, and I would definitley recommend her class to others!
The class was very hard and I was not able to see the tests so I could go over what I did wrong. The testmaterial was different from the book and it confused me a lot
very hard class
I was given prompt help when i needed it. And shown what is asked of me with enough time to finish the task at hand.
This class was very hard and easy for me because, first of all I do not know English(pronunciation) very well, this was my second psychology class so it helps me a lot that how to think, and what to write. And also this was my first online class I took in my life. All the materials was cleared and due dates timing and day was fixed, everything was given in tabs. I disliked is that she gave a less work on week 1 and week 2 instead of spreading the material evenly throughout the entire time period of the class. Otherwise I enjoyed this class because I was able to read other students ideas and answers to the topics that we covered to get a better understanding and perspective from outside students.   This helped me to better grasp the American culture better.
I believe the class was clear informative the objectives were right on and to the point. The class also followed the syllabus and the times and deadlines for assignments were clear. The professor was available through E-mail and responded to questions were quick and clear. The class was informative and interesting, I just wished it would have been a face to face class instead of on line. For me there was more than enough material covered in the class to have a better understanding of the topics. As far as my opinion for my first on line class ever it could have not been better. Everything was clear and to the point and if any questions did arise the professor answered them perfectly. The only drawback to a on line class for me especially a psychology class I would of liked to be able to debate some of the students answers in the class, to really take it to another level to find out if this is how the

really see the world. Nothing harsh or mean just truly finding out if they could support or back up their ideas with logical reasons.

I really enjoyed your online class this summer. Although it was online I actually learned a lot more than I thought. Thank you for everything

Awesome instructor, very helpful and informative. Very interesting class, I really enjoyed it.

Although, this course was challenging, this online class broadened my view on neonatal & pediatric health care. The aspect came at me with such a surprise but Professor Trubenstein made the ideals very tangible. If anyone is to take this course, they will learn a great deal and feel comfortable knowing you can go out into the world and provide help to newborns and pediatrics in the clinical setting.

It's an online course so I never really got familiar with the instructor to have anything to say but she was very good at helping us keep up with things.

I was worried that I would not do well in this class before it began, but Michelle taught it very well and it was easier than I expected. I feel like I have a good understanding of all the information and that I learned a lot from her and the class. Because it was an online class, I understand it can be difficult communicating but I feel like she did very well and was available to us whenever we needed her.

I learned a great deal about myself and those around me.

I really learned a lot thanks to the instructor

Was very good at keeping up with our work and helping if i needed any. She stayed on top of our grades as well. A+

Mrs. Hubbard was incredibly helpful. During this course I became very ill and fell behind, not only did she allow me to complete all material she was able to open, she was very compassionate about my condition. I feel as though I have learned a great deal from this class.
